Dear Ryan:

We write to thank you for the professional manner in which you and your team handled the minor variance application for creating an extra parking space on our property.

On August 15, 2012, we received a letter from The Committee of Adjustment, Town of Ajax confirming that as no appeals had been lodged with respect to their decision, the variance decision was final and binding.

A positive result in this complex application was a result of your expert knowledge, thorough due diligence and exceptional negotiation skills during the numerous meetings you had with the Town staff.

We also appreciate your attending the Committee of Adjustment meeting on our behalf, after which you promptly informed us of their decision.

Please thank your team and we highly recommend your services without hesitation.

Yours sincerely,

**Rajesh & Manjula Budhwar**
