**Re: Mac's Convenience Store #1743 - 1878 Highbury Ave., London, ON
Planning Consulting & Urban Design Work**

On November 8th, 2012 the captioned store, our newest in Ontario, opened for business. With 3,700 sqft of retail space, a Subway restaurant, a 4-island gas bar and adequate land area for a future car wash, we are well equipped to service the London market. This project wouldn't have happened without Weston Consulting.

We engaged Weston Consulting for planning expertise in the area of urban design and planning justification for our rezoning application. When met with the challenges typically present in such a scenario, Weston Consulting was able to expedite the process and secure our necessary approvals.

Your knowledgeable staff were well-versed in the marketplace, had the necessary connections at the City and fully understood their motivations leading to successful planning approvals. Furthermore, these approvals were granted without cumbersome conditions typically associated with projects adjacent to identified environmental areas. Bottom line: Weston Consulting had the skills and expertise to ensure our interests were maintained and that any contentious issues were resolved in an equitable manner.

We commend Alan Young, Ashlee Rivet and Muna Huq for their diligent work efforts, strong understanding of the London marketplace and City Hall itself. As a side note, following our Planning Committee meeting, the City's Manager of Planning commented that the urban design component of the presentation "...was the best he'd ever seen..."

Great work – Mac's would not hesitate to use Weston Consulting again for future projects and would definitely recommend you to other retailers and developers facing similar challenges. Thanks again!
