

Proposal Writer

Weston Consulting is an established and progressive land use planning consulting firm, which has served public and private sector clients for the past 38 years throughout the Greater Golden Horseshoe, Ontario, and beyond. Our firm requires the addition of a Proposal Writer to deal with a wide range of clients, challenging projects, and provide support to our planning teams.

About the Position

As an integral member of the consulting team, you will possess knowledge of planning and urban design practices, as well as project management. You will have strong written, analytical and organizational skills, as well as the ability to work with planners, designers, clients, and sub-consultants. Successful candidates will work with our internal team to manage the proposal issuance and tracking processes.

The successful candidate will have the following skills and experience:

- 0-3 years of related urban design, project management and planning experience;
- Ability to work with senior-level staff to provide support with research, writing, proposal preparation and tracking;
 - Ability to prepare compelling written documents geared towards business development and project procurement;
- Must possess strong communication and customer service skills. Specifically, the desired candidate(s) will have the ability to effectively convey, in writing, information about the firm's consulting practice and services, including both non-tangible services as well as deliverables;
- Database entry and management: tracking and responding to RFPs; assisting with maintaining project timelines and milestones; adhering to internal paradigms in relation to opening and closing files;
- Proficient in project management and graphics programs:
 - Deltek Vision, Excel, PowerPoint and other Microsoft Office-related products;
 - Adobe InDesign, Illustrator, and Photoshop;
- Document design and marketing packages, website maintenance, and various tasks related to a variety of interesting and challenging development projects;
- Ability and skills related to working with site specific analysis;
- An interest in graphic design would be an asset.
